Total Permitted and Bonded Acres and Mapping Requirements

2. Will you file bond covering all your mining acreage under your plan or will you file for an incremental mining plan?

Total Permit Acres: 2 Incremental Bonding: Yes ☐ No ☐

Please show your acreage below. If you have indicated incremental mining plan, then your acreage will be progressive to each incremental area. Prior to the issuance of this permit, a bonding map must be included detailing the sequence proposed for incremental bonding.

460:10-9-6. Mine maps should be accurate drawings, aerial photographs, or enlarged topographic maps of the entire mine area and of a scale sufficient to clearly illustrate the following:

(1) Outline of the area to be permitted detailing the affected areas, incremental mining areas, planned future reserves if requested by the applicant, buffer zones, easements, and rights-of-ways, for the number of years the permit is requested.

460:10-21-4. (b) An operator shall not disturb surface acreage or extend any underground shafts, tunnels, or operations prior to receipt of approval from the Department of a performance bond covering the surface acreage to be affected.

(1) Liability on the performance bond shall cover all non-coal surface mining and reclamation operations to be conducted within the permit area. Except for limited use permits, after the amount of the bond has been determined for the permit area in accordance with Subchapter 23 of this Chapter, the permittee or applicant may either file:

(A) The entire performance bond required during the term of the permit;
(B) A cumulative bond schedule and the sequence of release of acreage as it progresses through varying reclamation phases and for the addition of acreage as it is affected. The amount of bond required to obtain a permit shall include the full reclamation cost of the initial area being affected; or
(C) An incremental bond schedule and the new performance bond required for the first increment in the schedule.

(2) When the operator elects to "increment" the amount of the performance bond during the term of the permit, he shall identify the initial and successive incremental areas for bonding on the permit application map submitted for approval as provided in Subchapter 17 of this Chapter and shall specify the proportion of the total bond amount required for the term of the permit which will be filed prior to commencing operations on each incremental area. The schedule amount of each performance bond increment shall be filed with the Department at least 45 days prior to the commencement of non-coal surface mining and reclamation operations in the next incremental area.

A separate schedule detailing each increment must be attached to the application. An Incremental bonding map must be submitted if the total permitted acreage is not covered by bond.

Total Acreage to be coved by the permit: 2

REQUIRED Bond coverage: Minimum bond shall be $2,000.00.

Type: Surety: ☐ Cash: ☐ Check: ☒ Certificate of Deposit: ☐

Letter of Credit: ☐ Other: _____

Bond Number Identification: _____ Amount of Bond Coverage: $ 3000.00

Bond coverage submitted must be a total of the first increment or the entire permitted acreage requested.

☐ Yes ☒ No 1. Will this operation involve crushing or any other air contaminant emissions?

If you indicated Yes, please be advised that a permit may be required from the Air Quality Division of the Oklahoma Department of Environmental Quality. Please contact the agency for their respective requirements.

☐ Yes ☒ No 2a. Will explosives be used?

If Yes, review the Blasting Regulations and complete the Blasting Plan. The plan should accompany the permit application upon submission. In order to purchase, use, or store explosives on a permit, the permittee must also have a Blasting Permit Exemption.

☐ Yes ☒ No 2b. Does the permittee have a current Blasting Permit Exemption?

If Yes, provide Blasting Permit Exemption number _____. If No, complete the Blasting Permit Exemption in addition to the Blasting Plan. If explosives will be used, a mining permit will not be issued until a plan and exemption are secured.

☐ Yes ☒ No 3a. Will the operation involve washing the material mined, recycling processed water or other water handling?

☐ Yes ☒ No 3b. Will the operation involve dewatering the mine or discharging fresh or wastewater from the mine or plant?

☐ Yes ☒ No 3c. Does this operation fall within the jurisdictional requirements of the stormwater regulations of the Oklahoma Department of Environmental Quality?

If you indicated Yes to either 3a, 3b, or 3c, please be advised that a permit may be required from either the Department of Environmental Quality, Oklahoma Water Resources Board, or the Army Corps of Engineers. Please contact each agency for its respective requirements.

Please Note: A special permit to operate within certain municipalities or counties may be required. It is the responsibility of each applicant to contact the appropriate city or county officials to determine if the mining operation falls within their respective jurisdiction.

Specialized Processing or Manufacturing

☐ Yes ☒ No

9. *Will* specialized processing or manufacturing be conducted on site with the material mined that is not directly associated to mining? This includes specialized processing of the material ***after*** mining and processing by a plant site immediately after excavation of the material. This product would be unique in nature and produced from the material mined. This specialized processing or manufacturing facility might not be part of the mining process, and thereby, not included in the permit area requested in the application.

If yes was indicated, please provide ODM with a detailed narrative of the activity. The location of the specialized processing facility will need to be disclosed on the mining map. The description should include the equipment used and a flow chart showing the process. Once the description should include the equipment used and a flow chart showing the process. Once the description of the process is reviewed, a determination of applicability will be made by the Department. If the Department finds that the process is not directly associated with the mining, this area may be removed from permit consideration.
